

Crisis of Sindh

- **Poverty**
- **Lack of Education / Knowledge**
- **Lack of Awareness**
- **Lack of Resources**
- **Agricultural Income Taxes**
- **Taxation and Revenue policy**
- **Lack of certified seed & resistance varieties**
- **Lack of good governess to combat**

Our aims and objectives are:

- Economic development and self reliance.
- To improve knowledge and farming practices of growers of Sindh.
- To increase / optimize per acre yield of crops cultivated in Sindh.
- To bring change in the behavior of growers of Sindh and prepare them for global competition.
- To introduce new technologies / farming methods.
- To develop a training manual in local languages.
- To enhance meat and milk production in cattle of Sindh.
- To sensitized growers of Sindh about the importance of forest and wild life
- To teach methods of water conservancy and techniques to minimize water losses.
- To introduce our growers with Latest Information / Communication / Technological System, Agriculture related software / Applications
- To change course material in manual in Local Sindhi language in future time.

These are main crisis of agricultural we mostly faced in Sindh. Light of these major crisis in Sindh. We have started this Training program in local languages Sindhi and Urdu. Farmers Training and Skill Development program is timely need. Farmers Training and Skill Development Centre has started with the help of expert and resource persons.
